

MOON DANCE

THE MAGIC
GAME OF STORIES

...open your mind...

MoonDance

is a magic game of stories - inventing them, writing or recounting or play-acting them, sharing and enjoying them. There are as many variations as there are players. The only limitations are the limits of the imagination, and those are very far indeed – much farther than we tend to believe ...

MoonDance

is for people of all ages and backgrounds. Anyone can play it.

MoonDance

- takes you away to the wonderland of the imagination
- trains the use of mental imagery
- enhances expressive foreign language acquisition
- practises your creative writing skills
- supports your personal growth

MoonDance

has been enjoying nearly 20 years of undiminishing popularity among teachers, trainers, and players now. It is currently available in English, Spanish and German language versions.

MoonDance

comes with its own soundtrack: to relax you and at the same time stimulate your creative imagination, a music CD is included. It was especially composed for the game.

Here is how it looks:

The coloured segments on the Moon Disc in the middle represent eight archetypal segments of a story:

Once upon a time, there was ...

He/She/It lived ...

He/She/ It loved to ...

And so on.

For each segment, there is a deck of 20 cards containing characters, activities, places and so on, depending on the segment.

And here is how it goes:

Starting with the segment 'Once upon a time, there was ...', you pick any of the cards of the same colour and turn it over. it might read '... a dancer'. Maybe you begin by describing the dancer, or you pick up the next card belonging to the segment 'He/She/It lived ...', and that could say 'in a forest' and you start relating the dancer's life in the forest.

With each new card, another image will unfold before your mind's eye, and all you have to do is translate these images into written or oral narration and develop or embellish them to your own liking.

In the end, there will be a complete story that can be funny, mysterious, or a lot of other things, with surprising twists and turns and solutions to problems.

MoonDance

can be played on your own or in groups.
